

QUALITY CONTROL & CONTAINMENT

ICON OEM Inc.
Engineering-Quality-Logistics

Ensuring Excellence, Containing Risk

Why Choose Us?

ICON OEM is a consulting & engineering business specializing in manufacturer representation and on-site trouble-shooting. We also offer quality inspection and re-work.

Manufacturing & quality engineering solutions ICON OEM specializes in supplier continuous quality representation and non-conforming part containment. We are dedicated to do whatever it takes to assure that our customer's product quality is the best it can be.

We have earned our reputation through partnering with the Distribution industry and its suppliers. Our quality assurance systems work well with any industry. Consider our ample secure warehouse/workspace as an extension of your facility.

ICON OEM will sort, inspect, detect and contain non-conforming parts, utilizing inspection criteria established by each client's individual requirements. When required, rework and light assembly services are available.

Our Services:

- Consulting
- Contract Assembly / Light Manufacturing
- Logistics / Dunnage Control / JIT Delivery
- Manufacturer's Quality Representation
- Parts Inspection, Sort & Containment
